

www.reallygreatsite.com

Project Presentation

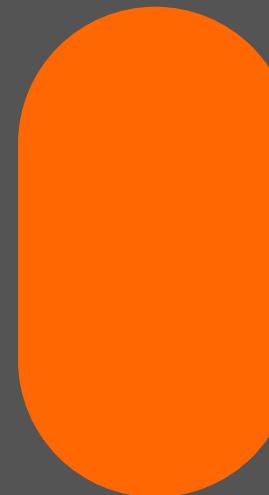

Design

We used a consistent design across all pages with a warm color palette with a black color for contrast

#111111

#ff6702

#f79407

#f9af46

Logos

We did two virsions of the logo, one for light background and one for dark background

Light version

Dark version

Project Goals

- Professional design and look.
- Simple-to-navigate portfolio.

- Performance and cross-browser website
- SEO friendly and optimized for SEs

Techs

1

HTML5

we used latest features
and syntax of HTML5
and tested by w3c
validators

2

CSS3

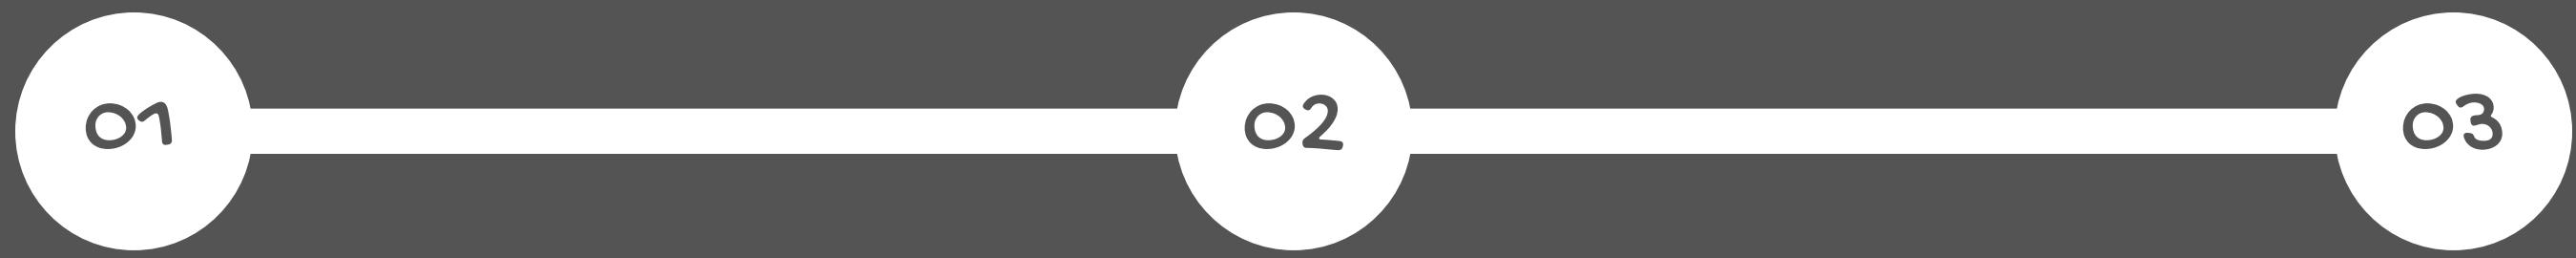

we used CSS3 flex box
for layout flexibility
and media queries for
responsibility

3

js

for toggling the
navbar and planning
to use it for login
using sessions

Project Timeline

designing

we used figma to design and
create mockups for the
portfolio

development

we started in team of three
using jira for team
organization and git for
collaborating

03

test and prod

we tested the across multi
devices and many people and
used github pages to host the
portfolio
